

GREEK WORLD

ENGINEERING & CONSTRUCTION TECHNOLOGY
LIMITED

Precision, Quality & Safety

THE COMPANY

ABOUT

A renowned engineering company specializing in a wide range of projects, including Construction of Plants, Roads, Bridges, Buildings, Oil & Gas Facilities, Offshore & Onshore Maintenance, Steel Erection, Pipeline Construction Works, Storage Tanks, Pressure Vessels, Fiber Tanks, Fabrication Works, CAD Designing, Roofing & Cladding, Abrasive Blasting & Painting. Find out more services below.

We unwaveringly adhere to established standard codes such as **(API), (ISO), (ASME), (AISC), (AWS), (ABS), (IIW) and (ATSSA)**.

This steadfast commitment guarantees that our company not only meets but exceeds quality benchmarks across steel fabrication, safety protocols, design precision, construction excellence, operational proficiency, maintenance integrity.

Vision Statement:

At Greek World, our vision is to pioneer transformative engineering solutions that redefine industries, enhance human experiences, and inspire sustainable progress worldwide.

Mission:

Greek World is dedicated to pushing the boundaries of innovation with fearless determination and unwavering commitment. Through our passion-driven team and cutting-edge technologies, we strive to deliver exceptional results, turning ambitious ideas into tangible realities and shaping a brighter future for generations to come.

KEY SERVICES

CAD DESIGNING

GENERAL CONSTRUCTION

WELDING & FABRICATION

MAINTENANCE

HIRING & SUPPLY

TESTING

INDUSTRIES

INFRASTRUCTURES

OIL & GAS

MINING

AGRICULTURE

Our Services Executions Include the Following

WELDING & FABRICATION

Warehouse structures
Steel bridge structures
Steel building structures
Pipeline Installation
Tank Farm Construction
Pressure Vessel Fabrication
Offshore Platform Fabrication
Yacht building
Shipbuilding
Silo
Office container fabrication
Piping and Pipe Works
Poly pipeline & welding
Pre-cast steel mold
Structural modification
Hoppers and Chute Building
Plate works

MAINTENANCE

Offshore & onshore maintenance/ Repairs
Plant Maintenance and Turnarounds
Office space
Urban area maintenance

CONSTRUCTION

Oil and Gas Facility Construction
Construction of Modular Plants
Pipeline construction
Road construction
Building Construction
Demolition

OTHER SERVICES

Consultancy services
CAD Designing
General Welding Services
Abrasive Blasting and Painting
Fiber storage tanks
Roofing & cladding
Steel bending
Rubber lining
Rigging, erection & installation
Pickling & passivating
Environmental Compliance Services

HIRING & SUPPLY

Labors & Materials
heavy duty machine
Transport vehicles
Scaffold
High-quality PPE

TESTING

Non-Destructive Testing (NDT)
Geotechnical Testing
Software Testing
Structural Testing
Material Testing
Environmental Testing
Electrical Testing

OIL & GAS SERVICES

Oil and Gas Facility Construction

GREEK WORLD focuses on Designing and Constructing Oil and Gas facilities, including refineries, processing plants, and distribution terminals, ensuring efficient and safe operations.

Pressure Vessel Fabrication and Maintenance

We specialize in the Fabrication, Installation, and ongoing Maintenance of Pressure vessels, such as tanks and reactors, critical to oil and gas processing.

Pipeline Installation and Maintenance

GREEK undertakes projects involving the Installation, Repairs, and maintenance of Oil and Gas pipelines, both Onshore and offshore, to ensure the smooth transport of resources.

Offshore and Onshore Plant Maintenance

GREEK provide expert services for the maintenance, repair, and optimization of offshore and onshore oil and gas processing plants, maximizing their efficiency and safety.

MINING SERVICES

Mining Equipment Fabrication

GREEK WORLD fabricates Custom Mining Equipment and Components, tailored to the specific needs of mining operations.

Material Handling Systems

We design and install systems for the efficient handling and transport of mined materials within the mine and for export.

Hydraulic Services

Greek World Engineering is specialized in Hydraulic Engineering solutions for mining equipment and processes.

Mine Infrastructure Development

We Design and Construct infrastructures for Mining Operations, including access roads, bridges, and accommodation facilities.

MARINE SERVICES

Ship and Boat Building / Maintenance

We Design and Construct various types of vessels, including commercial ships, yachts, and boats.

Marine Corrosion Protection

We apply anti-corrosion coatings and materials to protect marine structures and vessels

Dredging Services

We offer dredging services for the removal of sediment and debris from harbors, shipping channels, and waterways.

Underwater Maintenance and Inspection

GREEK WORLD conducts underwater inspections, repairs, and maintenance of marine structures and vessels.

Offshore Structures

We Design and Construct Offshore structures such as oil rigs, wind turbines, and subsea pipelines.

Port and Harbor Infrastructure

We design and build port and harbor infrastructure, such as piers, jetties, docks, and breakwaters.

AGRICULTURE SERVICES

Agricultural Storage and Processing Facilities

We specialize in Constructing and Maintaining agricultural storage and processing facilities, including grain silos, cold storage units, and processing plants. Ensure the safe storage and handling of crops and livestock products.

Greenhouse Construction and Management

We Specialize in the Construction of Cutting-edge greenhouses designed for controlled environment agriculture. Our expertise encompasses all aspects of greenhouse projects, including innovative design, expert construction, and proficient year-round management, with a specific focus on high-value crop cultivation.

Irrigation System Design and Installation

GREEK WORLD Engineering & Construction Limited specializes in designing and installing efficient irrigation systems to help farmers maximize crop yields while conserving water resources.

STRUCTURAL STEEL SERVICES

Steel Fabrication and Erection

We specialize in the Fabrication and Erection of structural steel components for a wide range of construction projects, including buildings, bridges, and industrial facilities.

Structural Renovation and Retrofitting

GREEK WORLD offers expertise in renovating and retrofitting existing structures, reinforcing them with structural steel elements to enhance their safety, durability, and load-bearing capacity.

Custom Steel Design and Engineering

GREEK provides Customized Steel Design and Engineering services, tailoring structural steel solutions to meet the unique needs of clients, ensuring efficient and cost-effective construction.

Industrial Plant Construction

We focus on the construction of industrial plants, including steel structures for factories, manufacturing facilities, and processing plants, where structural steel plays a critical role in supporting heavy machinery and equipment.

CONSTRUCTION SERVICES

Infrastructure and Civil Engineering

We Undertake, Large-scale Infrastructural Projects, such as Roads, Bridges, and utilities, contributing to the development and maintenance of vital public infrastructure.

Residential Housing Development

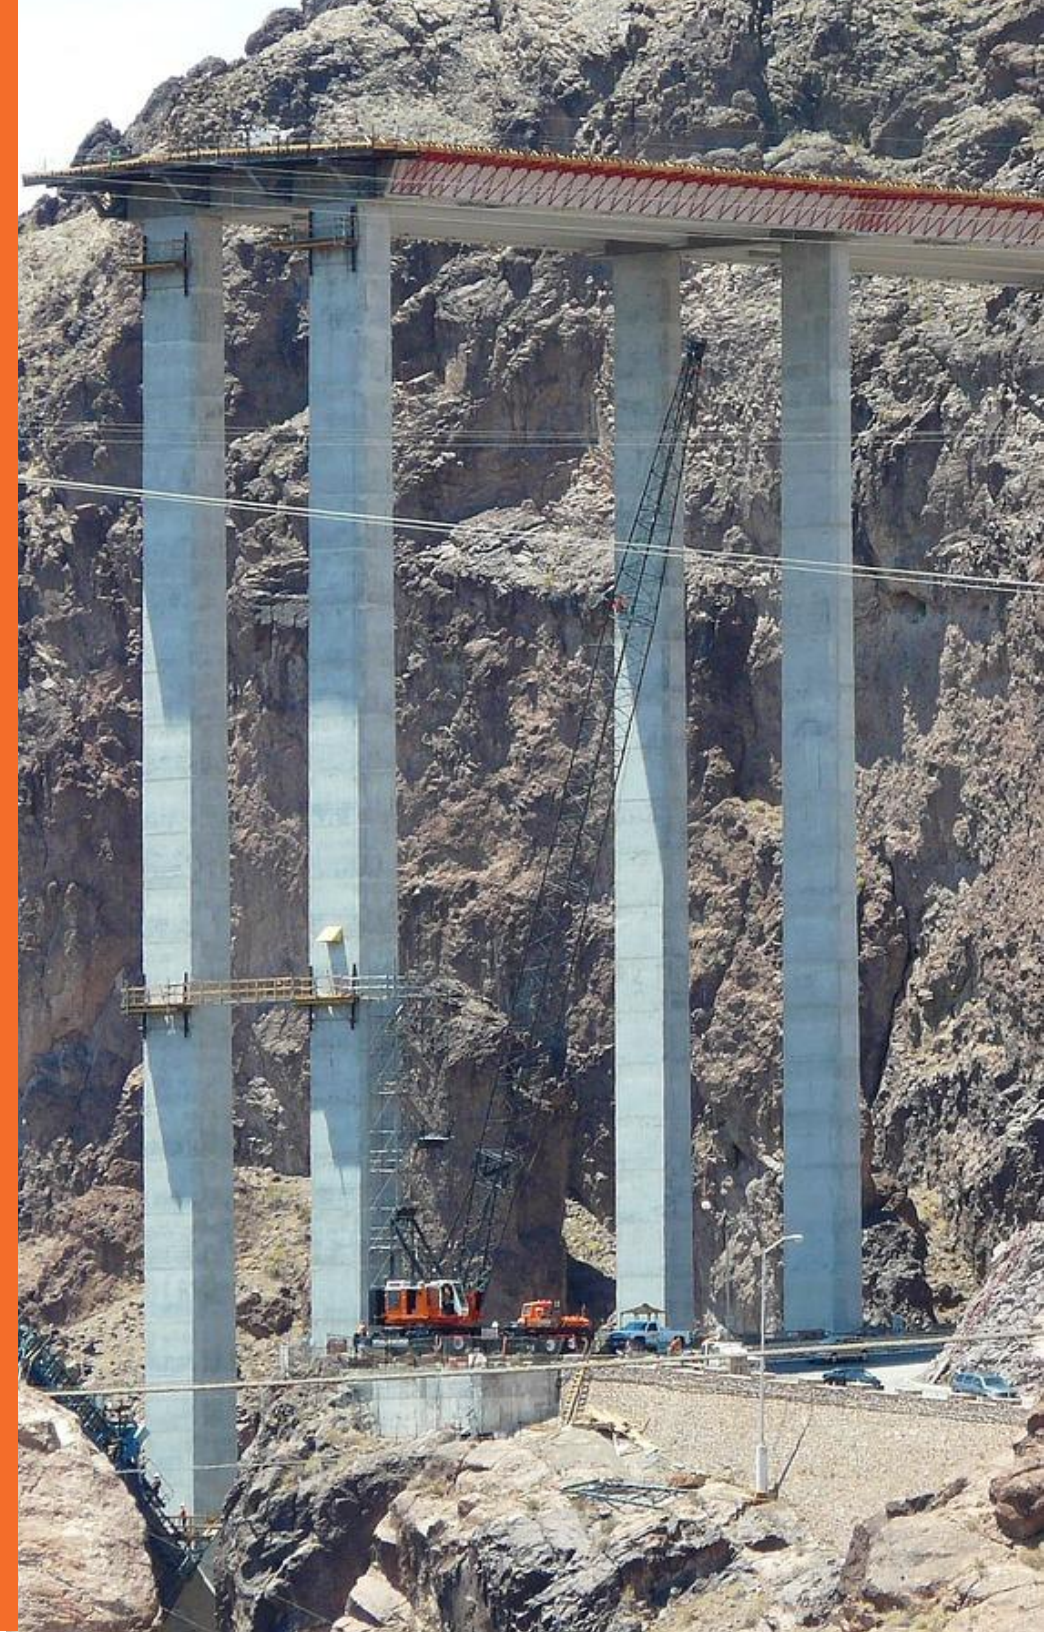

We Specialize in Residential Construction, including the development of Housing Projects, custom homes, and apartment complexes, catering to the needs of homeowners and Real Estate developers.

Commercial Building Construction

We Focus on constructing commercial properties, such as office buildings, retail spaces, hotels, and shopping centers, providing expertise in the design and construction of modern commercial structures.

Renovation and Remodeling

We offer Renovative and remodeling services, revitalizing existing structures, from homes to commercial spaces, while ensuring modern design and functionality.

MAINTENANCE SERVICES

Facility Maintenance and Management

GREEK WORLD Engineering & Construction Limited specialize in the ongoing maintenance and management of commercial and industrial facilities, ensuring their efficient operation, safety, and compliance with regulations.

Equipment Maintenance and Repairs

We offer maintenance and repair services for a wide range of equipment and machinery, supporting industries like Manufacturing, Construction, and Agriculture.

HVAC System Maintenance

We focus on maintaining heating, ventilation, and air conditioning (HVAC) systems for both residential and commercial clients, providing climate control and energy efficiency solutions.

Preventive Maintenance Programs

GREEK WORLD develops and implements preventive maintenance programs for clients to extend the lifespan of their assets, reduce downtime, and minimize repair costs.

GREEK WORLD ENGINEERING & CONSTRUCTION SERVICES

SERVICES: Consultancy Services, Welding & Fabrication, Engineering Drawing, Pipe-Fitting, Marine Services, Corrosion Treatment, Hydraulic Services, Labor & Logistics Supply, Mechanical Installation and more.
